## **Available Volunteer Positions**

**Good News:** Suggested for Starters. This is a position which just about anyone can fill. You don't have to seek out people or do anything publically assertive like handing out flyers or making speeches. You can, but only if you're personally okay with that. Just always be ready to share info about what HGRBS does when you think it the right time to do so. Please, never forget who you represent in this regard.

**Recruitment:** Of course, this is one of the most challenging assignments. You do primarily one basic thing: recruit eligible people for becoming volunteer associates. However, it's all on your time and at your discretion in terms of the where and when. No mandatory quotas. You shoulder all expenses.

**Strictly Online:** Basically, you make yourself available online to advise, consult, and support our American private home decision makers. What you offer is consistent with the mission and recommendation of HGRBS. Automatically, as we grow, you'll handle more e-mails with the option of training others to do the same.

**Online Auxiliary:** This entails a number of online assignments/projects among which are Quality Control Inspections, Research Assistance, Clerical Assistance, Surveys, Publicity Assistance, etc ... ..

**Writer – (General):** If writing is one of your strong points, you can write policy-related articles or stories about/for residents who have used, are using, or considering use of contractors for their private home projects. Your articles would appear in the network webpage “Successful Home Projects.”

**Writer – (Seniors):** However, if you like to write and your leaning are toward our senior who own or rent their own houses, you can showcase that area.

**Interpreter:** You may have a strong sense for sharing information about HGRBS with American private home decision makers who speak other languages. Some may speak little to no English. This would be perfect considering the fact that you'll be able to help them make better decisions about scouting for checking out, selecting, hiring, firing, reprimanding and/or prosecuting contractors. Of course, this is with regard to their home maintenance and improvement projects.

**National Team Builder:** This is more than just recruiting since this is an area where you [re always doing something proactive to recruit volunteer associates from all over the country ... .... Not just locally.

**Letter-Writer – (Hardcopy):** However, if you're okay with letter writing, you can write hard copy letters to various organizations like community centers, government offices, religious institutions, private clubs, and etc. ... about HGRBS. Yet, please remember that you're an independent. All incurred expenses in the process which you decided to make are all yours. Please, look before you leap.

**Photographers (General):** Photographers also normally work closely with team leaders to capture and/record images conducive to furthering the mission of HGRBS.

**Publicity:** This is very close to doing what everyone else is doing except HGRBS *Recruiters*. It entails multi-media activity i.e. phone calls, e-mails, portfolios, videos, hard copy letters, actual meetings, etc. ... to get more attention to the HGRBS phenomenon and press support. Please, remember that as an independent any expenses you decide to incur in your efforts are all yours. Your responsibility. To you, I also strongly recommend looking before *you* leap.

**Venue Specialists (Venue Scouting & Arranging ):** Activities often entail HGRBS approved community relations for arranging meeting places, public appearances, private meetings, and community event directly related to our mission. These personnel represent local, statewide, regional, and national teams engaged in same activity consistent with our mission.
