

“This is not a ‘job.’ This is a ‘personal activity’ “

Content Inspector

As a Content Inspector, you are assigned the honorable task for inspecting designated HGRBS documents which are used online. These are resident-friendly documents which are made available free of charge online.

These documents are for assisting residents towards making safer and better decisions for contractor assistance.

Whether you contribute a couple hours of your time or longer, this is something else you will always be proud of being part of.

HGRBS has 2 categories for Content Inspectors:

1. Websearch – You go online to inspect (proofread) content on designated live HGRBS web pages for grammatical errors, then jot down errors you find and share those findings via email with our Special Assignments entity.
2. Offline – You inspect (proofread) designated content/text of HGRBS documents offline for grammatical errors, then you make the necessary corrections, and submit them to Special Assignments for action. Most documents are for online.

In either case, you are provided with special, easy-to-follow tips for your convenience. Through inspecting documents and making corrections where allowable, this makes you a very important part of doing what you can to help ensure that residents where you live and elsewhere make wiser choices.

This is especially so because this field is very lacking in concern for sharing helpful information about home project safety with residents. Your assistance is as welcome as it is needed. Please, connect for more details.

If you have not yet registered via VolunteerMatch and communicated with HGRBS via that means, here is how you can begin this caring process: Register. Here is your link to VolunteerMatch:
